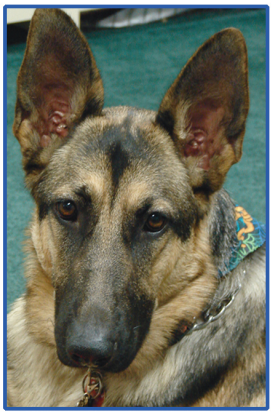
- *Setscrews on all 1 1/2" Openings*
- *Powder-Coated or Natural Finish*

"Y" Fitting
YF-270



Ruffles says, "Why ask "Y"? Just get 'em!"

Die-cast aluminum is used in the castings (47,000 P/S/I tensile strength). No more sloppy castings, as these are precision die-cast quality. Cast ribs are found in critical areas for uncompromising strength.

Please specify powder-coated finish when ordering.
