- *1/2" Threaded Conduit Hub Provided, with Plug*
- *Banding Guides are Cast in - or bolt on to mounting surface.*

"Many Different Signs are Available"

The PBA-1010ADA accepts 5" x 7 3/4" pedestrian signs. The popular GTE Corp. PB-3-ADA-2 pedestrian pushbutton are mounted to the sign frame and are easily removable, if desired. Adjustable pole guides allow adaptation to many different diameter poles, so that your inventory is reduced to one unit. Banding guides are part of the frame or one can mount the PBA-1010ADA using screws.

Please specify powder-coated finish when ordering.
